

**Youthtown Inc.**

To whom it may concern

Jonkers Pool Systems have been involved in the maintenance of the Youthtown pool for the past 12 years. During this time Jonkers Pool Systems have serviced our 200,000 litre pool on a regular basis offering expert advice on equipment and water treatment.

In August this year Youthtown commissioned Jonkers Pool Systems to undertake a full refurbishment of the Youthtown pool. This involved rebuilding, retiling and installing new filtration equipment.

We also replaced the sand in our filters, which after 3 months has proved to be an excellent choice not only improving the clarity of the water, it has also made a considerable reduction to the running costs.

Youthtown would have no hesitation in recommending Jonkers Pool Systems for any swimming pool project or maintenance.

Yours sincerely

A.J.Reid

Operations Manager Youthtown.
